Primary Education, KANTABANIA HIGH SCHOOL | 2020 (68.83%)
Jajpur, Odisha, India

SKILLS

Programming Languages: C, C++, Python, Java
Web Development: HTML, CSS, JavaScript, MERN Stack (MongoDB, Express.js, React.js, Node.js), FastAPI
Database: MySQL, SQLite
Tools & Practices: Git & GitHub, REST APIs, AWS S3
Soft Skills: Problem Solving, Logical Thinking, Communication & Teamwork

PROJECTS

PERSONAL PORTFOLIO WEBSITE

Designed and developed a personal portfolio website to showcase projects and skills using HTML, CSS, and JavaScript. Technologies Used: HTML, CSS, JavaScript, Bootstrap

RESOLINE CRM — Full-Stack Business Operations Platform

- Built Resoline CRM, a full-stack business operations platform using React.js, FastAPI (Python), and MySQL, covering leads, customers, employees, and role-based access control.
- Implemented lead and customer management with detailed workspaces, document handling, and AWS S3 file storage for attachments and photos.
- Developed attendance with GPS punch-in/out, late-punch approval workflows, leave management, and a live location tracker on maps for field staff.
- Designed a Kanban task board with priorities, due dates, comments, time logs, completion tracking, and file attachments for team collaboration.
- Added inventory and stock management with warehouses, purchase receipts, transfers, weighted-average costing, and reorder alerts.
- Built vehicle tracking and fuel expense claims with meter-photo verification, distance/fuel calculation, and admin approval flows.
- Delivered supporting modules for expenses, payroll/salary, operations workspace, service maintenance, dashboards, and monthly reports.
- Used JWT authentication, permission-based roles, REST APIs, and responsive UI (Tailwind/Radix) for secure multi-user access across desktop and mobile.
